Logistics Technology Solutions Leaders

ABOUT US

ABOUT US

A experts group of technology and logistic whose experience extends for more than twenty years in Logistic fields, most of them worked in biggest international and consulting companies, An great team that provides the best solutions, according to the budgeting and vision of each company, whether it is startup or currently existing in the market, as we will provide to these companies with all the technology and logistical solutions they need with the highest standards.

ABOUT US

We have actually built many strong companies, consulting for logistics companies also building fully tech solutions that are wholly owned by them, as we increase the valuation of the company's assets based on technology.

Vision

Vision

A hand in a brown suit jacket holds a pen, pointing at a digital chart. The chart features a candlestick pattern with red and blue bars, overlaid with a white line graph. The chart is set against a background of blurred office lights. To the right of the chart, a large orange pill-shaped graphic is partially visible. The overall scene is framed by a large, stylized number '4' in the background.

- Building successful a TECH companies with the possibility of competing locally and globally and according to the Vision 2030 through the digital transformation.
- LOGSTIAT is the first Saudi company to manage all of these services.

Objectives

Objectives

Serving the logistics sector in the right way to understand and work on the professional logistics standards and develop business in a professional manner, as well as building a special technology for each logistics companies

What do **we** offer

What do we offer

According to our experiences in the Saudi market, 90% or more of startups fail in the logistical fields for many reasons, such as not calculating the daily, monthly and annual expenses in a correct way. also Alternative plans are not made in case that all plans fails, and the main reason is It is the lack of professionalism, Basics of logistic and high experience in Logistic field.

What do we offer

Relying on temporary clients, and as soon as they terminate the contract, the merchant finds himself in trouble and unable to continue in Logistic field, LOGSTIAT will not let you fall down into this type of mistakes, as we will create a very clear plan for you to be one of the strongest companies in Logistic field.
